**SMOOTH WRAP: STRAIGHT**

# SMOOTH WRAP: STRAIGHT

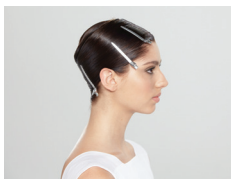

## step 1

Apply **smooth infusion™**, **style-prep smoother™** and **glossing straightener** evenly through damp hair.

## step 2

Section hair at crown. Make a part vertically. Create small sections of hair and comb, wrapping around the head, section by section.

## step 3

Release top section and comb it into the side wrap. Add more **glossing straightener**. Clip hair to keep it in place as it dries.

## step 4

When hair is dry, remove clips, pull out crown section, separate rest of hair from the wrap and brush out. Spray on **air control™** to finish.

Soy ink on 100% post-consumer recycled paper. Please recycle.
